

SATELLITE TECHNOLOGY (SATTECH) 2008

Date: 21st February 2008

Venue: Raffles Hotel, Singapore

Satellite Technology Asia (SATTECH) 2008 International Conference was held for its first time in Raffles Hotel, Singapore, on the 21st February 2008.

The event brought together - from all over the world - decision makers, operation managers, end users, technologists and procurement specialists in the industry.

SATTECH 2008 is supported by Singapore Airshow 2008, NTU Centre for Research in Satellite Technologies (CREST) and NUS Centre for Remote Imaging, Sensing and Processing (CRISP).

With the success of SATTECH 2008, and the overwhelming interest and support from its participants in the next Satellite Technology Asia Conference, Defence Technology Conferences is motivated and confident to deliver a better SATTECH 2009.
